

## GT PATHWAYS COMPETENCY: DIVERSITY AND GLOBAL LEARNING

Required in GT Pathways Categories:

[GT-SS2](#) (SLOs 1, 2 & 3)

[GT-SS3](#) (SLOs 1, 2 & 3)

### *Criteria for Diversity & Global Learning*

Competency in Diversity & Global Learning refers to a student's ability to critically analyze and engage complex, interdependent structures and constructs (such as natural, physical, social, cultural, economic, or political) and their implications for individuals, groups, communities, or cultures. This competency will introduce students to concepts on various scales (such as spatial, temporal, contextual, or personal) toward building their awareness of diversity and the importance of inclusivity. Through diversity and global learning, students may also 1) become informed, open-minded people who are attentive to diversity across the spectrum of differences, and 2) seek to understand how their actions affect both local and global communities.

~~Competency in Diversity & Global Learning refers to a student's ability to critically analyze and engage with complex, interdependent global systems and legacies (such as natural, physical, social, cultural, economic, and political) and their implications for people's lives and the earth's sustainability. Through global learning, students should 1) become informed, open-minded, and responsible people who are attentive to diversity across the spectrum of differences, 2) seek to understand how their actions affect both local and global communities, and 3) address the world's most pressing and enduring issues collaboratively and equitably.~~

### *Student Learning Outcomes (SLOs)*

Students should be able to:

1. Build ~~Global~~ Self-Awareness (required for GT-SS2 & GT-SS3)

- Demonstrate how their own attitudes, behaviors, or beliefs compare or relate to those of other individuals, groups, communities, or cultures.
- ~~Evaluate how their own and other's actions at the local level impact the natural and human world at the global level.~~

2. Examine Perspectives (required for GT-SS2 & GT-SS3)

- Examine diverse perspectives when investigating social and behavioral topics within natural or human systems.

- ~~● Recognize and reflect on other's perspectives (such as cultural, disciplinary, and ethical) when investigating subjects within natural and human systems.~~

### 3. Address ~~Cultural~~ Diversity (required for GT-SS2 & GT-SS3)

- Make connections between the worldviews, power structures, and experiences of individuals, groups, communities, or cultures, in historical or contemporary contexts.
- ~~● Make connections between the worldviews, power structures, and experiences of multiple cultures historically or in contemporary contexts.~~
  - ~~● Build Self Awareness: Demonstrate how their own attitudes, behaviors, or beliefs compare or relate to those of other individuals, groups, communities, or cultures.~~
  - ~~● Examine Perspectives: Examine diverse perspectives when investigating social and behavioral topics within natural or human systems.~~
  - ~~● Address Diversity: Make connections between the worldviews, power structures, and experiences of individuals, groups, communities, or cultures, in historical or contemporary contexts.~~

### 4. Share Personal and Social Responsibility

- Address ethical, social, and environmental challenges within local or global systems
- Identify a range of actions or solutions informed by one's sense of personal and civic responsibility

### 5. Understand Global Systems

- Examine the historical and contemporary roles, interconnections, and differential aspects of human organizations
- Explore impacts and actions on global systems within the human and the natural worlds.

### 6. Apply Knowledge to Contemporary Global Contexts (suggested for service learning/enrichment programs/study abroad)

- Incorporate multiple disciplinary perspectives (such as cultural, historical, and scientific) when identifying solutions to contemporary global challenges.

**DIVERSITY AND GLOBAL LEARNING RUBRIC**

*This rubric is meant to be an **optional** course design and assessment tool. Evaluators are encouraged to assign a zero to any work sample or collection of work that does not meet level one performance criteria.*

**Comment [JS1]:** Only those rows associated with the new learning outcomes were kept in the rubric. SS2 and SS3 faculty want an opportunity to review and revise this rubric to ensure that it aligns with the new learning outcomes. In particular they felt that the rubric needed to include "diversity" and that it needed to have language associated with the new outcomes.

Ian's response: I rejected the deletion of the SLOs you are not requiring. They need to stay in the document because some other content area may require them in the future. Of course, you only need to pay attention to the SLOs you are requiring.

<b>Build <u>Global</u> Self-Awareness</b>	Addresses and evaluates significant issues in the natural and human world based on articulating one's identity in a global context.	Evaluates the global impact of one's own and others' specific local actions on the natural and human world.	Analyzes ways that an individual's personal decision-making influences the natural and human world.	Identifies some connections between an individual's personal decision-making and certain local and global issues.
<b>Examine <u>Perspectives</u></b>	Evaluates and applies diverse perspectives to complex subjects within natural and human systems addressing multiple perspectives including possible conflicting positions (i.e. cultural, disciplinary, and ethical.)	Synthesizes and summarizes multiple perspectives (such as cultural, disciplinary, and ethical) when investigating subjects within natural and human systems.	Identifies and explains multiple perspectives (such as cultural, disciplinary, and ethical) when exploring subjects within natural and human systems.	Identifies multiple perspectives while maintaining a value preference for own positioning (such as cultural, disciplinary, and ethical).
<b>Address <u>Cultural</u> Diversity</b>	Adapts and applies a deep understanding of multiple worldviews, experiences, and power structures while initiating meaningful interaction with other cultures to address significant global problems.	Analyzes substantial connections between the worldviews, power structures, and experiences of multiple cultures historically or in contemporary contexts, incorporating respectful interactions with other cultures.	Explains and connects two or more cultures historically or in contemporary contexts with some acknowledgement of power structures, demonstrating respectful interaction with varied cultures and worldviews.	Describes the experiences of others historically or in contemporary contexts primarily through one cultural perspective, demonstrating some openness to varied cultures and worldviews but does not acknowledge power structures.

<b>Share Personal and Social Responsibility</b>	Evaluates the ethical, social, and environmental challenges of global systems and proposes specific and targeted actions informed by one's sense of personal and civic responsibility.	Analyzes the ethical, social, and environmental consequences of global systems and identifies a range of actions informed by one's sense of personal and civic responsibility.	Explains the ethical, social, and environmental consequences of local and national decisions on global systems and identifies one action informed by a sense of personal and civic responsibility.	Identifies basic ethical dimensions of some local or national decisions that have global impact but does not identify any action.
<b>Understand Global Systems</b>	Evaluates major elements of interconnections within the historic and contemporary role and differential aspects of human organizations to explore impacts and actions on global systems within the human and natural worlds.	Analyzes major elements of interconnections within the historic and contemporary role and differential aspects of human organizations to explore impacts and actions on global systems within the human and natural worlds.	Examines minor elements within the historical and contemporary role, and differential aspects of human organizations and begins to explore impacts and actions on global systems within the human and natural worlds.	Identifies minor elements within the historical and contemporary role, and differential aspects of human organizations and attempts to explore impacts and actions on global systems within the human and natural worlds.
<b>Apply Knowledge to Contemporary Global Contexts</b>	Applies knowledge and skills to implement sophisticated, appropriate, and workable solutions to address complex global problems using interdisciplinary perspectives independently or with others.	Identifies and evaluates complex solutions to global challenges that are appropriate to their contexts using multiple disciplinary perspectives (such as cultural, historical, and scientific).	Formulates practical yet elementary solutions to global challenges that use at least two disciplinary perspectives (such as cultural, historical, and scientific).	Defines global challenges in basic ways, including a limited number of perspectives and solutions.
