AGENDA
GE 25 Council
December 12, 2005
1:00pm
CCHE Conference Room

Dial Conferencing Access Number is 1-866-258-0959
Dial Conferencing Room Number is ***1770121***

Action Items:

-Revision and Official Approval of all gtPathways Forms
      Nomination
      Evaluation
      Content
      Competency
      (With assistance from John S.; Jeff R.; Alan L.; John L.; and David C.)

-Revision and Official Approval of gtPathways Protocol

-Author an official Council resolution, what our policy is concerning courses that are changed, in any way, AFTER they have been reviewed and approved for final placement into the gtPathways curriculum?

- **How should we configure the two, newly established advisory committees of the GE 25 (1. Faculty; 2. Advisors/Registrars)? How many members do we want on the advisory committees? How should they be chosen? How long should they serve?**

- **How should we configure the Content Review Committees for both the Faculty-to-Faculty Conference and the gtPathways reviews? Who should serve as chairs? Should we have vice-chairs? How long should there terms be? Should we include this in the gtPathways protocol?**

-Should the GE 25 Council author an official resolution concerning the general education curriculum at UCD and the CCCS (that the courses included in the GE are contingent upon their approval for placement in the gtPathways curriculum)?

-Establish GE 25 Council meeting calendar for 2006

Discussion Items:

- Core stamp-yes or no?
- Grandfathering for students with changing GT Pathways requirements and programs-for how long?

- Minimum grade for GT Pathways courses that will guarantee transfer (C – is congruent with other transfer policies and stated on our website).
- Can any course have more than one GT Pathways designation?
- General agreement on what "significant writing component" means.
- (Should) the GE 25 Council develop a list of majors at four-year colleges and universities that have specific course requirements for the 60+60 program and list on the CCHE web site. Are any majors in the liberal arts and sciences allowed to exceed 120 hours? (Confirm)
- Consider approving new GT Pathway courses in the early spring, in time to be included in GT course listings in individual, printed college catalogs for the new academic year. (Already aligned with printing deadlines ??)
- Should we beta test the revised forms?
- Develop a listing of items that we believe should be part of the gtPathways website: (Below is a list combining my recommendations with those previously recommended by members of GE 25):
  Discussion/Recommendations-

  - Definition of Gen Ed
  - Membership (current) of GE 25 Council/AC
  - Minutes of GE 25 Meetings
  - Faculty-to-Faculty Conference Information (**including report**)
  - Lists of reviewers by institution/content
  - Sample Syllabi
  - All updated, revised gtPathways forms
  - Courses approved for gtPathways curriculum (**by Institution**)
  - Test Matrix
  - List of majors that exceed the 120 limit
  - Link to the King Bill (1263)
  - Link to the gtPathways Infrastructure/GE 25 Council Bill (1298)

Information Items:

- The CCHE and the CCCS will host a joint Training Session
- We are currently beta testing the new evaluation form
